## Two Ways to Buy Fluorescent Lamps

### THE HARD WAY...

You might buy a dozen light bulbs, such as the great modern phosphor-coated tubes now used by Canadian General Electric to check uniformity of light output in G-E Fluorescent Lamps. Then, you might investigate electronics (basic principle is fluorescent lamps). And for good measure, you might hire 340 engineers, physicists, metallurgists and industrial scientists responsible for G-E Lamp development. Yet, you might do all these things when you want high quality fluorescent lamps... but there's a better answer.

## GENERAL ELECTRIC

## Fluorescent Lamps

### THE EASY WAY...

Insist on G-E Lamps. Whether you want lamps for replacement or lamps for new lighting in homes, offices or plants, insist on the General Electric trademark. It assures you all the advantages of leadership in lamp development. Our lamp research works constantly to give you fluorescent lamps that Stay Brighter Longer.

# You can get what you want...through CANADA SAVINGS BONDS

Most likely you have already experienced that glow of satisfaction—that comfortable feeling of security which comes from having a nest-egg of Victory Bonds or War Savings Certificates in case of emergency or for important purchases.

So it was no wonder that 80%—more than 8 out of 10—of thousands of bond buyers interviewed in a recent survey voted to keep up this kind of saving. In answer to this overwhelming demand, the new Canada Savings Bonds go on sale October 15th. No more Victory Bonds or War Savings Certificates will be issued.

Canada Savings Bonds provide an opportunity for you to continue to save regularly in the most convenient way—while at the same time your

money earns a higher interest than can be obtained from comparable investments.

But—please remember this point. There are "Serve Yourself" Bonds. There will be no wide-spread home-to-home canvass—it is up to you to make sure you buy.

### How to Buy

You can buy them at any bank; and from authorized investment dealers, stock brokers, trust and loan companies or from representatives of these agencies—for cash or by the Monthly Savings Plan. Where your employer offers a Payroll Savings Plan, you can buy your bonds by regular deductions from your pay.

## Not Only Bridges...

Most Canadians know something of the role which Dominion Bridge has played in the development of one of the largest industries which give our country, equally important, the Company's contributions to the field of industrial development.

As an example, this decade alone we were able to build, built, installed at McGill University and replace the work of the Company's heavy division, which designs, manufactures and erects all types of steel structural equipment. Staffed by specialist engineers, this division is leader-ship in the construction of steel structures in Canada and abroad and they continue to expand their services to large and small.

From Dominion Bridge products include: bridges, industrial equipment and plantwork, and structures, towers, steel, mining equipment.
